# FOREWORD

You now hold in your hands a book unique in the history of the world. It is the story of a class unlike any others which ever existed or will exist. Never again will the particular arrangements of physical and mental traits which make each member of the Class of 1962 what he is occur. Never again will the forces of history be so combined as to produce a year like 1962.

The 1962 *Evergreen* is therefore a most valuable book. It is not just another yearbook; it is the record of an unparalleled class in an unparalleled year. Certainly the Class of 1962 is not the greatest ever to graduate. Its members will not go on to make the world a Utopia within a year after graduation. But for better or worse, there will never be another like it. Consequently, read the 1962 *Evergreen* carefully to learn of this unique class and its matchless deeds.

## DEDICATION

ROBERT F. CASEY

We, the members of the Class of 1962, proudly dedicate the 1962 EVERGREEN to two men who have made our years at Greenfield High School enjoyable as well as profitable. Throughout the years Mr. Robert F. Casey and Mr. James Fotopulos showed an interest not only in the academic aspect of our lives but also in the more personal aspects.

When we entered Greenfield High School as sophomores, Mr. Casey was serving as Principal. He had a personal interest in each student and his problems. His smile and friendly manner were ever present. In his new position as Director of Pupil Personnel Services, Mr. Casey continues to demonstrate his concern for the students in many helpful ways.

Although Mr. Fotopulos has been teaching in Greenfield High School for only a few years, he has already shown a keen interest in the activities of the students. He has done a fine job as Advisor to the Student Council this year and has gained many friends among its members. The interest in his students in the classroom has also earned him a loyal following.

For the many hours which these two men have devoted to making the Class of 1962 a success at Greenfield High School we wish to express our deepest gratitude.

JAMES FOTOPULOS

# IN APPRECIATION

We, the Class of 1962, are sincerely grateful to Miss Marion L. Congdon, our Yearbook Advisor, for the many hours that she has dedicated to make this Yearbook possible. Under her guidance the Yearbook Staff has worked smoothly, and all deadlines have been met on time. Miss Congdon's positive attitude and helpful suggestions have been a continual source of encouragement for the staff. She has displayed the patience and fortitude that an Advisor must have to face the many problems which occur in the compiling of a yearbook. We are fortunate to have had Miss Congdon for our Yearbook Advisor.

Mr. Boucher demonstrated his sincere interest in the Class of 1962 when he undertook the responsibility of being Advisor to the Yearbook Advertising Staff. The members responded to his generous efforts by working hard at their jobs. With his capable assistance this staff sold more than thirteen hundred dollars worth of advertisements. This financial backing substantially reduced the ultimate cost of the Yearbook. From the first staff meeting to the last financial report, Mr. Boucher has given liberally of his time. The Class of 1962 genuinely thanks Mr. Boucher for the assistance that he has given and the interest that he has shown.

# ENGLISH

NORMAN E. ROTHSTEIN, B.A.  
University of Massachusetts  
English

The primary objective of all English courses is to develop the four basic skills of communication: reading, speaking, writing, and listening. The student is exposed to a reading program that not only has depth but breadth of time and nationality. He gains a background knowledge of literature that depicts significant themes and which has contributed to our cultural heritage. Each student is encouraged to develop a permanent interest in reading. Vocabulary building, expository writing and a knowledge of semantics are a vital part of the English curriculum. One learns to think critically so as to discriminate between values and

also develops the ability to make wise decisions. Through wide reading the student is taught to distinguish between fact from opinion and to support generalizations with valid evidence. Through effective teaching an aesthetic appreciation is developed in each student. Through oral expression the student gains the skill and confidence needed in speaking before a group. Students are assigned to English divisions after careful consideration of previous achievement record, results of reading and aptitude tests, and upon recommendations of teachers. Mr. James O'Neil is also a member of the English Department.

# SCIENCE

WILLIAM N. SAUTTER, B.S.E.  
Fitchburg State College  
World Science  
Practical Physics and Chemistry

The science course is directed toward allowing the student the opportunity to become a more useful figure in society. The student is trained to be a critical thinker and thus becomes better adjusted to his surroundings. The use of highly organized reflection, which is so vital in making decisions, is developed in the laboratories where observations of experiments are analyzed. In addition, a greater knowledge concerning our universe and our environment is gained. As a result, a student can develop a strengthened philosophy of life and gain an understanding of himself. The science student, perpetually being presented with new challenges to which applications of facts and laws must be rendered, discovers how to cope with the various problems which he will encounter during

his life. As man is curious and also has the desire to explore and invent, a student may display his creativeness in the Science Open House which occurs annually. In Biology the student becomes acquainted with various types of plants and animals as well as the human body. In the science of Physics the student is introduced to a vast and rapidly increasing field of knowledge. One gains a clearer understanding of many aspects of daily life. Modern Chemistry deals with the fundamental portions of chemical theory in the study of the nature of matter, elements, compounds, and mixtures. World Science and Practical Physics and Chemistry are courses offered for the non-college-preparatory student.

English

The primary aim of the social studies program is to have the student, fully understand the political, economic, and social developments of the society in which we live. He becomes acquainted with past history of the world, learns how to distinguish between fact and opinion, and gains complete understanding of the fundamental principles of democracy. The customs and living conditions — the people themselves — as well as the geography and the government of various territories are studied. In the course of United States History the student gains a richer understanding of our country and of the framework of our government. Emphasis is placed on the need for an

understanding of past events and on the development of skills and techniques in problemsolving. Wide reading and research becomes a "must" for each student in the field of social studies and the school library serves as a storehouse of information. All students must have at least one year of U.S. History before graduating from G.H.S. For those who do not qualify for this course must take "American Way of Life," a survey of U.S. History. Vital lectures, interesting films, and numerous field trips are important to the program of Social Studies. Mr. Walter Ouimette is also a member of the Social Studies Department.

# F O R E I G N

# L A N G U A G E S

All language courses are designed to develop in each student the ability to read and write foreign languages and to speak and understand them correctly. The foreign languages which Greenfield High School offers are French, German, and Latin. Pronunciation is stressed, and grammar is taught as part of a foreign language. Not only must one learn to read and write with understanding in a foreign language, but also one must develop the skill of understanding the language when it is spoken to him. The culture, history, and government of the country are emphasized through periodic book reports and current events. Students taking the college certified course are

urged to complete two years of a foreign language. Three years are suggested for competence in the language. Correspondence with students in foreign countries is encouraged. \*Mr. Lawrence Cox, who is on a year's leave of absence to teach in Japan, is a teacher of German at G.H.S.

Guidance

A guidance counselor is assigned to each grade in high school. He has the responsibilities of administering and interpreting tests, keeping accurate school records, and holding interviews with students and parents. He must be familiar with the curriculum, college entrance requirements, scholarship information, military service requirements, and occupational information. Upon entering the secondary school program of education, students encounter many new and perplexing problems and Counseling and Guidance become vital. The counselor helps students to select courses which will meet their capabilities and needs. Students learn more about themselves in the program of Guidance and thus learn to make wise educational and vocational decisions. Counselors hold conferences each Wednesday evening

for parents who wish to make evening appointments. The new position of Director of Pupil Personnel Services makes the program in Guidance more complete. Mr. Lawrence Cox, who is on a year's leave of absence to teach in Japan, is senior guidance counselor.

In 1960 the program for the academically-limited student was started in high school. This Special Class attempts to provide a pressure — free area in which academic subjects can be taught at grade levels which provide success for the student who works at his own learning rate determined by his capabilities and his potential. In addition to reading, writing and arithmetic, creative arts, typing, music, social studies, physical education and home economics are included in the program for Special Class.

# C O M M E R C I A L

The Commercial or Business Education Program is designed to introduce to the student the basic knowledge, skills, and understandings which are essential for life in a business world. It provides a sound program for pupils who wish to major in commercial training in high school or who elect to go into commercial work as a vocation. The necessary training for jobs in local offices and businesses is provided in the commercial department. Many graduates go on to advanced commercial schools to prepare for management or professional business positions. In addition to Stenography, Bookkeeping, and Typing, Secretarial and Clerical Office Practice as well as

Retail Selling are included in the commercial course. Accuracy and speed become a "must" in order to attain excellence in commercial work. Using and understanding business machines are necessary in this course. Students also have opportunity to work as secretaries for school administrators and teachers. Personal Typing is a favorite elective for all students who can be accommodated. The International NOMA Spelling Project is administered annually and other competitive skills are included in the program. Business etiquette and the importance of good grooming are emphasized.

The art and music courses offer the student an opportunity to express his special interests and abilities. Fine Arts may be considered the medium through which beauty is expressed. Students are encouraged to participate in and appreciate the Fine Arts. In this program satisfaction and enjoyment are gained from self-expression. Creative Arts and Arts and Crafts offer the student opportunities to develop his talent through the experience of graphic arts, commercial art, costume design, stage crafts, and advanced handicrafts. Students work with wood, metal, leather, and other crafts materials. The History of Art course is a study of how man has improved his conditions

through his art activities from earliest times.

Music Appreciation, Glee Club, Band, and Orchestra are offered in the musical program. Music Appreciation is designed for those students wishing to develop a greater understanding of and appreciation for classical, romantic, and contemporary music. The Band is a musical unit which studies various presentations of music ranging from classical to contemporary. The members of the Band play at many school activities including football games, assemblies, annual concerts, and also for some civic affairs. The Glee Club participates in school programs.

# Mechanical Drawing

FRANCIS G. MAHER, B.B.A.  
Boston University  
Geometry  
Algebra  
Practical Mathematics

The main objective of the mathematics courses is to develop in each student an understanding of the number systems and of the operation on them. This training benefits the student when, in more complex mathematics courses, he encounters a challenge in abstract thinking involving numbers, geometric figures, and standardized symbols. Good habits of logical reasoning are developed.

Senior Mathematics is offered to qualified seniors who plan to major in mathematics in college or who have a special interest in obtaining a good foundation in mathematics. Practical Mathematics is designed to meet the needs and interests of other students and emphasis in this course is placed on

practical problems generally encountered in everyday use along with an opportunity to study the slide rule and simple elements of Algebra and Geometry. Mrs. Kirkpatrick is also a member of the Mathematics Department.

In Mechanical Drawing precision and neatness are emphasized. Basic skills in lettering and geometric construction are included in the course. Pride in results of work and a craftsman's respect for work, tools, and his occupations are stressed continually. Scale drawings and the mastery of drafting techniques, through the use of drafting tools, are a part of the course. Miss Donahue teaches a class in Mechanical Drawing.

# H O M E E C O N O M I C S

Home Economics is one of the most useful and essential arts for girls. The area of personal social and family relationship helps the student to select goals and values for all stages of the family cycle which give meaning to personal family and community living. Knowledge of the basic fundamentals of clothing, foods and nutrition is gained. Students enjoy buying, preparing and serving attractive meals and making some of their own clothing. Home projects are required in addition to classroom projects. Field trips are included in the program. Management and Consumer Economics develops long range goals for financial security. In Home Economics all areas are covered each year. The rooms provided for Home Economic classes offer an ideal atmosphere.

# H O M E N U R S I N G H E A L T H

Home Nursing teaches the student the knowledge, techniques, and skills needed to give nursing and emergency care safely and effectively. Prevention of disease and general health education are stressed. The characteristics and care of the child from birth to pre-school age are studied in Child Growth and Development. In the course of First Aid emphasis is placed on preparedness for national disasters. Physical examinations as well as examination of eyes, ears and teeth are given periodically to all students. Students are required to read and report on current literature concerned with health and medicine. Individual health rooms are provided and are adjacent to the classroom.

# PHYSICAL EDUCATION

# LIBRARY

One needs a strong healthy body and mind to insure success and happiness in life. The physical education department plans a program to meet the physical and recreational needs of both boys and girls. Not only does the program offer activities for continuous physical development, but also students learn worthwhile activities for leisure time. Physical education classes are held outdoors whenever possible and during this time the girls play field hockey, tennis, and softball in addition to performing various exercises. The boys practice football, tennis, baseball, and track with emphasis on the skills involved as well as doing exercises. Basketball, volley ball, tumbling, and gymnastics on the ropes are some of the indoor activities. The basic fundamentals and rules of each game are taught. Physical tests are given periodically to determine agility, strength, skill and endurance of each individual.

Library Science, an orientation course in library skills, is taught by the librarian to all sophomores in regular class periods. In addition to teaching library instruction, the librarian trains interested students to work as student librarians. The library is used before school in the morning, after school and is used every hour of the school day. Much research is done in the school library as well as wide reading of periodicals and books for reports. At the present time the library has approximately 7500 volumes, five daily newspapers and sixty periodicals. A library of professional books and magazines is available to teachers and a file on occupational and career information along with college bulletins meet the needs of the students. Picture and pamphlet files serve the classroom teacher.

# V O C A T I O N A L

ROBERT RICHARDSON  
Northampton Commercial  
Vocational: Related Carpentry

Vocational education has a definite aim and should not be regarded as general education. Being situated in a community where the majority of workers are in industry, the Vocational School has for its objective the training for profitable employment. The vocational student is trained in skills and good work habits, in the operation of the tools, machines of industry, in the use of measuring and testing devices of industry, and of the application of knowledge of mathematics, science, English, social studies and other cultural subjects. This preparation tends to make for the employer a valuable apprentice out of an earnest

vocational graduate and it usually decreases the term of apprenticeship by a considerable amount. The vocational student alternates studies in classroom and in the shop each week. Thirty hours is spent in the shop and the alternate week is spent in the classroom where the student has related and academic subjects. In this way he is not only pursuing the required training needed for employment, but is educated in the cultural subjects that make him an intelligent citizen. This is certainly an exemplary form of balanced education and the industrious and conscientious student graduates equipped to take his place in industry.

# V O C A T I O N A L

JOSEPH O. TAYLOR  
Gloucester High School  
Vocational: Mathematics, English  
Science, Print Shop

The shops are well equipped with the basic machines and tools of four trades: machine, automobile, printing, and house carpentry. The projects which are carried on in the shops are of commercial standards and the tolerances allowed in measurements are as limited as those in industry. No practice work is carried on for the shop persons; all jobs are "live" projects which are carried to completion. The students are responsible for printing up the school newspaper, programs, and other printed forms. In the automobile shop, cars

are brought in to be repaired and are sent out in running condition. Wood products, small tools, and furniture are constructed in the shops. Actual house construction is one of the objectives for this year. Because of his training, the adjustment from student life to the demanding life of a full-time worker is not as difficult for a vocational graduate as it would be for a graduate of the regular high school. A four year course is offered in the Vocational School.

## CLASS OF 1962

The Class of 1962 has certainly been a success. As sophomores, we successfully put on the Thanksgiving Day Dance, had a top notch variety show, and started selling refreshments at the basketball games. In our junior year, our achievements were directed towards our outstanding Junior Prom — but this has been the year which has illustrated further the excellence of our class. Our high scholastic standing was demonstrated when the School Committee decided to have faculty members do “team teaching” with an experimental group of advanced students in our class. The senior boys certainly demonstrated our superiority in athletics during our tremendous football season. We showed our exceptional school spirit when we organized a Pep Club and the Boy Cheerleaders.

Yet, the achievements of our class could not have been so great without the leadership, cooperation, and diligence of our class officers. Dick has been our president for all three years. His leadership has accounted for our successful activities. Art, our vice-president, new to G.H.S. this year, has proved his worth through his willingness and cooperation. Jeannie, our treasurer for three years, has been one of our most diligent workers. Whenever help was needed, Jeannie was always there. Kathy has been our secretary in our sophomore and senior years and we have all benefited greatly by Kathy’s hard work.

Now that our class has completed its years at G.H.S. we, the students of that class, can proudly say, “We the Class of 1962, have achieved our goal: loyalty, honor, and scholarship.”

## BOOSTER DAY

Reigning over the Booster Day festivities was Sue Graves, who with Judy Boron, Nancy Fritz, Nancy Rogers and Sue West, her court, directed the sale of tickets during the previous week. To promote their sale of tickets they were on television, made a broadcast, and appeared at the Garden Theatre.

Sue was crowned by Barb Anderer, last year's Booster Day Queen, on Friday night, September 29, 1961 at the rally in G.H.S. auditorium. That night Sue and her court received charm bracelets from the Student Council which sponsored the event. Entertainment was provided by G.H.S. students and Harold Patnode was Master of Ceremony.

The next day proved to be an exciting and memorable one for the Queen. The Greenies won the game against Chicopee by a score of 36—6. That night the annual Booster Day Dance, sponsored by the Cheerleaders was held, and the Queen and her Court were presented to those attending.

The main purpose of Booster Day is to make money for the G.H.S. athletic fund. The candidate who sells the most tickets earns the Booster Day crown. This year a total of \$1,193.50 resulted from the sale of tickets. The entire student body participated in the Booster Day festivities and the Queen and her court wish to extend their sincere thanks to them for their enthusiasm and school spirit.

## CLASS OFFICERS

L to R — Beverly Collins, Secretary, Phillip Mowry, President, George Quadrino, Treasurer, Kate Foster, Vice President.

## CLASS OF 1963

From a class of 248 Juniors, elected officers are Phil Mowry, President; Kate Foster, Vice President; Bev Collins, Secretary; and George Quadrino, Treasurer.

As a Sophomore, Phil ran with the track team, served as Class President, was a member of National Honor Society, and a member of Hi-Y. During his present Junior year, he is again a member of National Honor Society as well as a member of our football squad and of the Student Council.

Kate was an officer in homeroom during her Freshman year and received the Silver-J Award. She has belonged to the National Honor Society for two years.

One of the busiest members of our class is Bev Collins, who has participated in the glee club, worked on the Exponent and served as Chairman of the Thanksgiving Dance Decorating Committee. She has been Secretary of Tri-Hi-Y as well as a Homeroom

Secretary. This year she became a member of Student Council and served as Chairman of the Junior Prom Decorating Committee. She continued as Secretary of Tri-Hi-Y, as a member of the Exponent Staff, and was a delegate to the Student Council Convention which was held at Frontier Regional School in South Deerfield.

Our Treasurer, George, was active on the tennis team, in the Rifle Club, and also in the Junior Classical League, during his Sophomore year. At present, George is still active with the tennis team and also finds time to participate in his civic interest, the Young Republican Club of Greenfield.

When the "62" Yearbook goes to press, the present class officers and other interested class members will be busily working on plans for their big event of the year — the JUNIOR PROM.

## OUR JUNIOR FROM NAIROBI

One of the most cheerful and extroverted members of the Class of 1963 is Emily Anman, a seventeen-year-old from Nairobi, Kenya. Emily is one of 136 students from Kenya who, under the sponsorship of the Unitarian Church, are presently studying in the United States and Canada.

Before she came to the United States, Emily attended Saint Theresa's Girls' School in Nairobi. She finds that American schools differ little from those in Kenya. One difference which did surprise her, however, was that American students are allowed to elect some of their subjects. In the schools of Kenya, which are patterned after European schools, students are not allowed to choose any of their courses.

Other situations in America also surprised Emily. She now admits that many of the notions which she had formed about America while still in Kenya were quite unjust and false. She thought that most American teenagers would be "wild delinquents" and that she would encounter much discrimination. However, since she has been in the United States, she has formed a more favorable impression of our country. Yet, she finds that some Americans have as many misconceptions about Kenya as she had about America! Many Americans, for example, think of Kenya as a country of primitive huts. In truth it boasts some cities much like those in America.

One of the great values of an exchange program is that it can correct misconceptions like those mentioned above. Both the exchange student and the natives learn a great deal about the other's country. The fact that Greenfield High School participated in this program for the first time this year makes this year an especially important one in the school's history. Greenfield is certainly fortunate to have a girl as charming as Emily as a student and "teacher."

## CLASS OFFICERS

L to R — Jean Kelleher, Secretary; Joanne Charron, Vice President; Barbara Harris, Treasurer; Rodney Hochrein, President.

## CLASS OF 1964

The Class of 1964 entered G.H.S. in September 1961. We are happy and fortunate to be welcomed into such a new and big school. Comprised of regular school and vocational school students, several of our 264 class members took an immediate active interest in the extra-curricular activities offered. In addition to participating in the sports and serving as cheerleaders, some sophomores joined the band, glee club and other school organizations. Other students were selected to work in the school library and some served with the Exponent Staff. Cecilia Guiu and Katherine Sigda were named sophomore editors for the "62" Yearbook.

The Officers serving our class are Rod Hochrein, President; Joanne Charron, Vice President; Jean Kelleher, Secretary; and Barb Harris, Treasurer. Rod was a member of the football squad

and was elected to serve on the Student Council before he became President.

Joanne, Jean and Barbara are members of Tri-Hi-Y. Jean is our only class leader who has previously held an important office. As a Freshman, she served as Student Council Secretary.

The first big project of our Sophomore year was the "10-11," a dance sponsored for the football team at the conclusion of the season. The "10" stood for Grade 10 and the "11" stood for the football team. Because of the Blue Laws the date for this annual dance was not available. Although we were disappointed in the change of date, the dance was a very successful affair.

The Class of 1964 extends its appreciation to Mr. Murphy for his help as Advisor and Counselor.

## ROOM 202 — MISS LAWLER

Maruri Laban

Emily Annan and Maruri Laban

## OUR SOPHOMORE FROM KENYA

Our school was fortunate enough this year to have Maruri Laban, a serious-minded exchange student, come to us from Kenya, Africa. Maruri's stay in America is sponsored by the Unitarian Church. Presently he is enrolled in the sophomore class. He has two years of high school and then he will go on to college.

Before coming to America, Maruri lived in a small village near the equator, outside a town about the size of Greenfield. Like many of those from the village, his family is large and used to a more rural way of life. The people, for the most part, work on neighboring coffee plantations.

While still living in the village, Maruri attended a missionary school for eight years. He participated in Boy Scouts and did quite a bit of camping. After completing the local compulsory education, he took an examination to go to a government school. Although he scored highly on the test, he was denied a position in one of the overcrowded schools. There were very few alternatives left for Maruri at this time. He could either go

to work on the plantation or go to a Teachers' school for two years, which would prepare him for teaching the lower grades. Because he would not be satisfied with either way of life, he left the village to go live with his brother and his family in Nairobi. While in Nairobi, he read widely and also wandered about the city. In January of last year he heard of the opportunity to come to America and made the necessary arrangements.

After arriving in America, he had a difficult time adjusting to his new environment. He had had only two years of formal English, but he has continued to study on his own and is now becoming more proficient. The cold weather and American food have required Maruri to make many adjustments. Many of his previous conceptions of America have proved false. Much to Maruri's surprise we are not all cowboys who are still riding the range.

Maruri realizes that it is his duty to return to Nairobi with an education that will be of benefit to him and to his people.

**FRANCIS MURPHY**

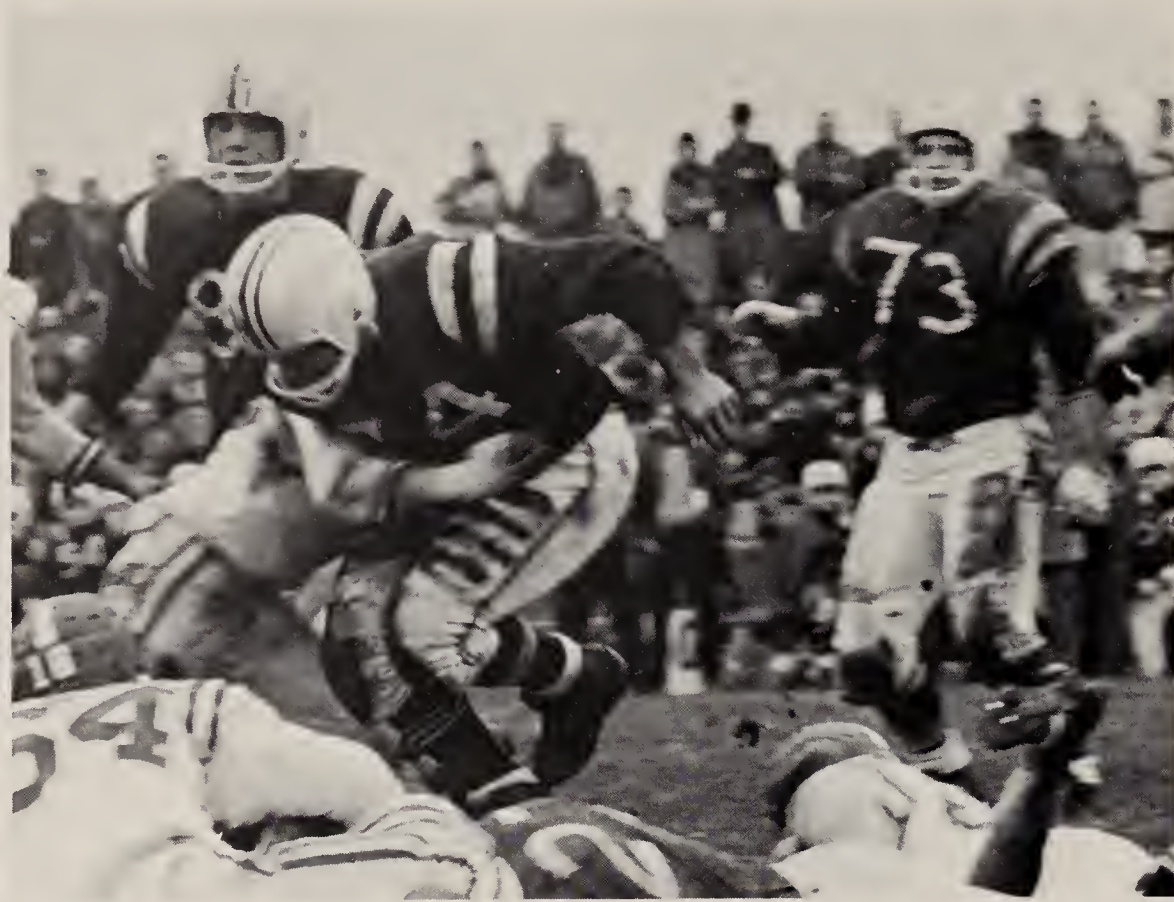

## FOOTBALL

— Starting the season with over forty players, the GHS Football Team has one of its most successful seasons since 1955. Although the team lost two out of the first three games, it came back strong to win the last six games in succession. — The faking tactics of quarterback “Doc” Borgatti and the running of Dick Benoit of Agawam combined to give the Greenies a loss in the opening game of the season. The contest was highlighted by the passing combination of Jerry Kells to Dick Howe and Jim Bresciano, and the rushing of Fran Murphy. — After a disappointing start Greenfield came back to overwhelm Chicopee on Booster Day. Kells passed to Haseltine, Howe, and McDonald for three touchdowns, while scoring one himself. Murphy, the hard-running fullback, added another TD from ten yards out. The red-dogging of Ron Kuzmeskus plus the rest of the defensive team dominated the second half, holding Chicopee to a single score. — Failure to capitalize on a number of good breaks cost the Greenies the Westfield game. Both teams were strong defensively but mistakes on the part of Greenfield determined the winner of the game. — The Greenwave fooled the forecasters on the following Saturday. Considered a slim underdog against Holyoke, Greenfield blanked the Knights and were sparked by the running of Bresciano, and Murphy and the defensive work of Dziekonski. — Returning to Vet’s Field, the Greenies next opponents were the Panthers of Cathedral High. This was the first Valley League foe since the inception of the AA Conference. Murphy, who scored twenty-two points, and Ron Kuzmeskus, who scored a TD, led the offense, while the entire defense could do no wrong. — The next victim of the Greenwave was West Springfield, who had not lost to the Greenies in the past five years. The defense continued to improve with Tim McDonald intercepting two passes and Bernie Gaudry and Dick Ballou intercepting one each. The forward wall of

Gaudry, Dziekonski, Kusmeskus, Doran, O’Kula, and McLeod held West Side to a total of thirty-four yards rushing. The big man in the offense was again Murphy, scoring three touchdowns. — A stubborn Tech defense and an injury to fullback Murphy made the game at Trade Field in Springfield one of the toughest battles of the season. Leading by only one TD at half-time, the Greenwave offense, controlling the ball for nearly the entire fourth quarter by the running of Sullivan, McLeod, and Kuzmeskus, gained another TD to insure the win. Kells, hitting nine out of sixteen passes, completed to end Dick Howe for forty-six yards, one of the best plays of the game. Sustained Tech drives were consistently halted by Dziekonski, Doran, and the rest of the defense. — Completing the AA schedule, Greenfield added another victory over Class A Northampton. Trailing at half-time, the Greenies toughened their defense and dominated the rest of the game. Defensive play was highlighted by a TD scored by Dick Ballou after a pass interception. Another six points were added by Art Brown, the important Greenie kicker, on an accurate pass from Jerry Kells. — The traditional Thanksgiving Day game at Sheff Memorial Field went pretty much as predicted with the Greenwave controlling the game. Although Turners Falls began the contest with several good gains, the defense soon tightened, and the Greenies eventually pushed the Indians back farther than they had advanced. Touchdown passes to Haseltine and Ciszewski highlighted the Greenfield offense. — In addition to a fine season the Greenwave landed berths on the Recorder-Gazette All-Star Team with Dick Ballou, Joe Dziekonski, Dick Howe, and Fran Murphy. Murphy, Dziekonski, and Ballou were also selected for the AA Conference Team. Dziekonski and Murphy due to their fine ability, were chosen to be members of the All-Western Mass. Team.

# ON THE COURT

## BASKETBALL

Although the GHS Basketball Team had a rather discouraging season, it provided many thrills for local fans. Losing a majority of their games by close margins, the team lacked the height and experience which are necessary to win in the Valley League. Three of the games, two with Westfield and one with West Springfield, were lost in over-time. Although these were heart-breaking losses, no one could disagree that the team possessed spirit and determination.

The only remaining members of last year's Varsity Squad were Jerry Kells, Butch Patnode, and Jack Haseltine. The other players on the starting five were Art Brown and Dick Howe. Brown, a newcomer from Vermont, was the tallest member of the squad and took care of most of the rebounding for the team. Patnode and Kells were noted for their versatility as defensive and offensive stars, while Howe and Haseltine also turned in good performances as the play-makers of the team. Other members of the Varsity included seniors: Fran Murphy, Paul Sullivan, Bill Martin, Ken Wilkinson; juniors: Tim McDonald and John Pekenia.

Looking ahead into next season it appears that the Varsity Team will have more height. The loss of the present seniors on the team will be felt, but all look forward to a better season for GHS.

## GIRLS' VARSITY BASKETBALL

This year the Girls' Varsity Basketball Team had a successful season with 6 wins and 3 losses. The team was ably co-captained by "Sue" West and "Kathy" Steiner. Showing much skill in defensive and offensive maneuvers, the girls displayed the spirit and teamwork which accounted for their victories. The only underclassmen on the starting team were juniors, Betsy Richardson and Lois McKenney, who added their talent to the Varsity. Managers for this year's squad were Nancy Fritz, Betty Broughan, and Paula Hempel, all of whom served faithfully. Girls' basketball is coached by Miss Jean Cappelluzzo.

Nancy Fritz  
Manager

FRONT L to R — P. Prutzman, S. Wainshal, P. Rowe, M. Taylor, S. Jacob, L. Palestine. BACK — L. Coutu, T. Krostoski, L. Berry, S. Franklin, B. Broughan, K. Koldis, B. Foster, S. Eastman, M. Bush, B. Macgregor.

## GIRLS' J.V. BASKETBALL

The J.V. Basketball Team has completed a very successful season with 9 wins and 0 losses. Although the team was inexperienced, it deserves much credit for excellent teamwork and fine sportsmanship. This team shows great potential for next year's Varsity. Betty Broughan served as manager this year.

Co-captain — F. Murphy

## BASEBALL

'61-'62  
TEAM

Fran Murphy  
Butch Patnode  
Jerry Kells  
Bill Martin  
Paul Sullivan  
Bernie Gaudry  
John Haseltine  
Bill Doran  
Frank Siano  
Jeff Whitney  
Doug York  
John Phelps

Co-captain — H. Patnode

The GHS Baseball Team is not organized as the Yearbook goes to press, but we expect an exciting season. A large turnout for the team is anticipated with many members of last year's team returning. Butch Patnode, pitcher and infielder, and Fran Murphy, catcher, have tentatively been named co-captains.

Jerry Kells will probably also pitch for the "Greenies," and his ability along with the pitching of Butch Patnode and Paul Sullivan, should form a strong base for the team. Other seniors whom the team will rely on are Bill Martin, Bernie Gaudry, and junior, Jack Haseltine. The team is coached by Mr. Benjamin.

## SOFTBALL

The 1961 Girls' Softball Team had an outstanding season by winning all their games. Although some of the leading players of the '61 Team graduated, we are looking forward to the "remaining" members and to new interested players. The girls are expecting another fine season. Softball will again be coached by Miss Cappelluzzo. Plans are underway now for the "62" Season as this Yearbook goes to press.  
— L to R — J. Chaplin, N. Fritz, and N. Franklin.

# SOFTBALL TEAM

# TRACK

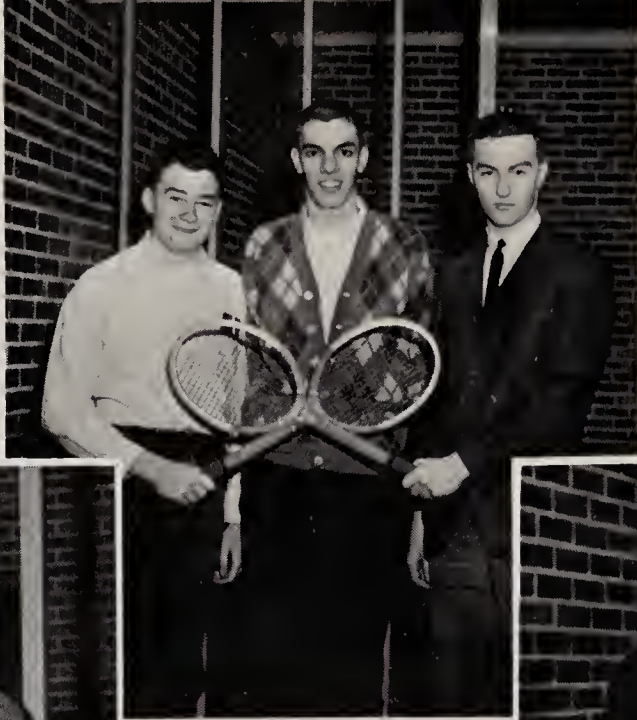

After winning many of their meets last year, the GHS Track Team is looking forward to another good season. The success of this year's team will depend on the running of trackmen Tom Piontek, Dick Howe, Pete Ciszewski, Butch Patnode, Pete Gunn, Ken Wilkinson and fieldmen Joe Dziekon-

ski, Tim McDonald, Dick Ballou, and Rick Artus. Members of the track team who should gain considerable attention in this area are Tom Piontek, mile, Dick Howe, 880, and Joe Dziekonski, discus. Mr. Dyer coaches the Track Team.

# TENNIS

L to r — G. Quadri-  
drino, D. Wheeler,  
K. Daft.

FRONT L to R — N. Franklin, J. Man-  
ning. BACK — D. Bolton, K. Grealis, A.  
Wormwood.

FRONT L to R — D. Tetreault, L. McKenney.  
BACK — B. Broughan, P. Ripley.

## RAYMOND F. SPENCER

## FAREWELL

The Class of '62 has the honor of paying tribute to Raymond F. Spencer, Greenfield High's first Tennis Coach. Mr. Spencer served as Tennis Coach of the boys from 1933 until 1958 and under his direction the Boys' Team won the Valley League Championship in 1951, 1952, 1956, and 1958. Throughout the years he also created an interest in tennis among the girls and coached the Girls' Team. Mr. Spencer has been known for his own fine tennis playing in and around Greenfield.

In the fall of '61 Mr. Spencer retired from his position as Head Custodian in the Greenfield schools. Although he has retired he is often seen at GHS visiting with his many friends and also attending athletic games. We wish him a happy retirement and although we bid him farewell, we know he will continue to be a GHS sports enthusiast. He will be long remembered by the Alumni as a great coach.

Tennis teams were coached last season by Mr. Vickerson and Mr. Roulx of the faculty.

# A CTIVITIES

President — Harold Patnode  
 Vice President — Richard Ballou  
 Secretary — Jean Chabot  
 Treasurer — Susan Graves  
 Faculty Advisors —  
     Mr. Fotopulos  
     Mr. Thompson

## STUDENT COUNCIL

One of the most important organizations of G.H.S. is the Student Council, for its work benefits all the students. This year, as in the past, the Student Council sponsored the annual Booster Day. Also, the Student Council organized the class elections and the "two-party" council elections. Some other projects included ushering, taking charge of the concessions at the football games and helping to schedule assembly programs for the latter half of the year. It is worth noting that the Student Council became a member of the National Organization of Student Councils and

that representatives were sent to the two Massachusetts Student Council Conferences.

Membership of the council is comprised of officers and homeroom representatives. There are also ten deserving members elected by the council from the student body. Each May the Council elections are held for the coming school year. Under the direction of Mr. Fotopulos and Mr. Thompson the council attempted in this way, to acquaint the students with a basic understanding of democracy.

President — Carol Roscoe  
 Vice President — Phillip Mowry  
 Secretary — Elizabeth Wormwood  
 Treasurer — Jayne Coughlin  
 Faculty Advisor — Miss Garbose

## NATIONAL HONOR SOCIETY

The National Honor Society is comprised of sophomores, juniors, and seniors who receive averages of 3.5, 3.4, and 3.0 respectively. At the end of each marking quarter if a student attains the required average, he is placed under the consideration of a faculty committee which recommends qualified members to the Society. The candidates must meet other prerequisites which are leadership, character, and service.

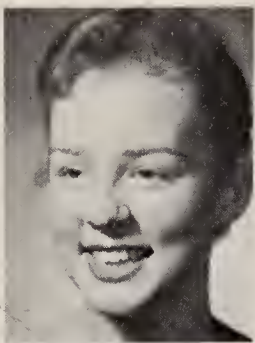

This year the N.H.S. sponsored quite a few projects. At Christmas time members collected toys and canned foods from the students to give to the Salvation Army. Also they held a Christmas party for members. During the football season N.H.S. sold refreshments at the concession booth at Vet-

eran's Memorial Field. In addition to these projects National Honor Society presented an assembly program for the installation of new members.

As in previous years the members of the N.H.S. lent their services of ushering at various school functions such as class day and graduation. In a new service project which was added this year members helped to promote scholarship by tutoring other students of G.H.S. in various subjects. This service may continue in future years as a regular part of the N.H.S. program.

It has been a busy and interesting year with the tutoring service, special projects, and the installation service. Members of the National Honor Society worked conscientiously toward their goals.

Editor-in-Chief  
Nancy Rogers

## EXPONENT

The main goal of the Exponent, the Greenfield High School newspaper, is to create interest in the paper and to include as many students as possible, either by mentioning their names in the paper, by printing their opinions or by employing them on the staff.

A new addition to the newspaper this year is a cumulative index which includes the names of students who were mentioned in previous issues with reference to the issue in which they were mentioned.

Another precedent is the awarding of plaques to the first two homerooms which achieve 100% subscription rate. Special projects sponsored by the Exponent Staff were a Sadie Hawkin's Dance and assembly programs.

Advisor, Mr. Clough, the printers from the Vocational School, the photographer, and the typists all contributed to the success of the newspaper. Nancy Rogers, editor-in-chief, along with her page editors and staff members have done an outstanding job in publishing a school newspaper which is interesting and enjoyable.

Page Editors — Stanley Cummings  
Jane Manning  
Lee Ann Latham  
Joanne Rogers

Photographer — James Carpenter  
Typist — Ann Prescott

Advisor — Mr. Card

These groups are organized also to provide enjoyment for the members. Swimming, skating, tobogganing, and bowling are some of the club activities as well as group discussions and dinner meetings.

Members are grateful to the Y.M.C.A. for the time and effort spent by its staff who help to make the entire program successful. Such a program benefits school and community and helps to train young people to become good citizens.

## RIFLE CLUB

Faculty Advisor — Mr. Jonelunas

Interested students learn gun safety through actual participation in the Rifle Club. Members who become skilled and meet the qualifications of the National Rifle Association receive championship medals . . . During school assemblies and special programs for school and community one finds members of the Stage Club busily working backstage . . . Both of these clubs induce students to make worthy use of leisure time.

## STAGE CLUB

Manager —  
John Ward

Faculty Advisor —  
Mr. Adams

# DIDS

## 1962

Woman sits amid wreckage of her home at Port O'Connor, Texas, after hurricane Carla swept inland from the Gulf of Mexico to batter Texas and Louisiana.

Late in the year the insistent rhythms of the Twist became an international fad giving rise to a rash of new songs, movies, and not a few strains and dislocations.

Astronauts John H. Glenn, Jr., right, and Scott Carpenter with a Mercury capsule at Cape Canaveral, Fla. Glenn was named for this country's first manned orbital flight; Carpenter as backup pilot.

## CLASS YEAR 1962: AT HOME

Alan B. Shepard, Jr., dangles in a harness as he is lifted to a helicopter from his bobbing space capsule which landed in the Atlantic Ocean after his suborbital flight from Cape Canaveral, Fla., in May.

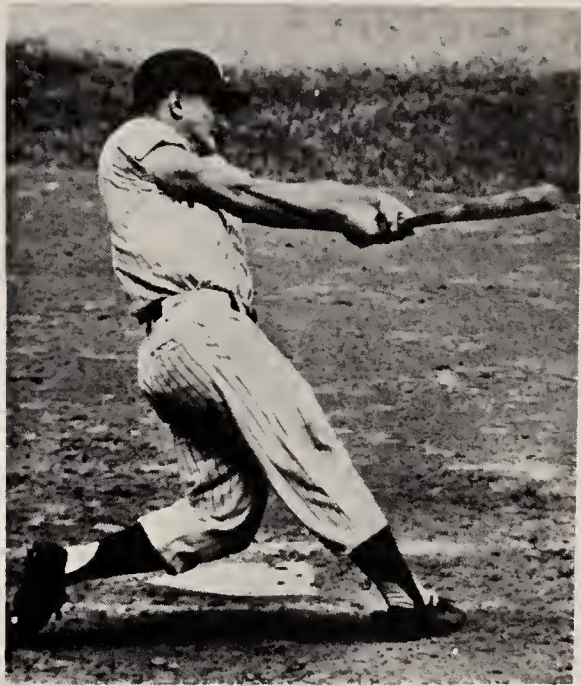

This is all that remained of homes along a stretch of road in the Bel-Air section of Los Angeles after a brush fire swept the area—worst in Los Angeles history.

A freedom rider bus goes up in flames after a fire bomb was tossed through a window near Anniston, Ala.

Roger Maris, New York Yankees' outfielder, finishes swing after hitting 61st homer at Yankee Stadium on last day of season.

Redstone rocket carrying Astronaut Virgil Grissom's capsule lifts off Cape Canaveral launching pad on space flight.

Model family fallout shelter holds attention of visitors at the Kentucky State Fair in Louisville, symbolic of the upsurge of national interest in civil defense.

President Kennedy and cabinet members before the first cabinet session at the White House. From left, Postmaster General Edward Day, U.N. Ambassador Adlai Stevenson, Vice President Johnson, Defense Secretary Robert McNamara, Agriculture Secretary Orville Freeman, Labor Secretary Arthur Goldberg, Welfare Secretary Abraham Ribicoff, Commerce Secretary Luther Hodges, Attorney General Robert Kennedy, Secretary of State Dean Rusk, President Kennedy, Treasury Secretary Douglas Dillon and Interior Secretary Stewart Udall.

One of the year's most dramatic pictures as East Berlin soldier leaps over a barbed wire barricade into West Berlin.

Adolf Eichmann, charged by the Israeli government with the murder of millions of Jews, is flanked by guards in his bullet-proof dock during his long trial which started in April.

Cuban government picture caption says this is Castro's militia in action in area of Laguna Del Tosoro (Treasure Lagoon) southeast of Havana during unsuccessful invasion attempt by expatriate Cubans.

Soviet-built personnel carriers tow artillery pieces through Plaza Jose Marti in Havana, Cuba, during parade honoring the third anniversary of Castro's revolution. In the background are five-floor high pictures of Castro and Lenin.

Soviet Premier Nikita Khrushchev embraced Russia's cosmonauts, Maj. Gherman Titov, left, and Maj. Yuri Gagarin, after both made space flights around the world.

Soviet Premier Nikita Khrushchev exchange smiles with Mrs. John F. Kennedy when they attended a concert in Vienna during the President's trip to Europe which included a meeting with Khrushchev.

Katanga president Moise Tshombe placed a wreath on the coffin of United Nations Secretary General Dag Hammarskjöld after Hammarskjöld died in a plane crash while enroute to Congo cease-fire talks.

Princess Margaret and husband, Lord Snowdon, the former Antony Armstrong-Jones, with their first child, David Albert Charles, Viscount Linley.

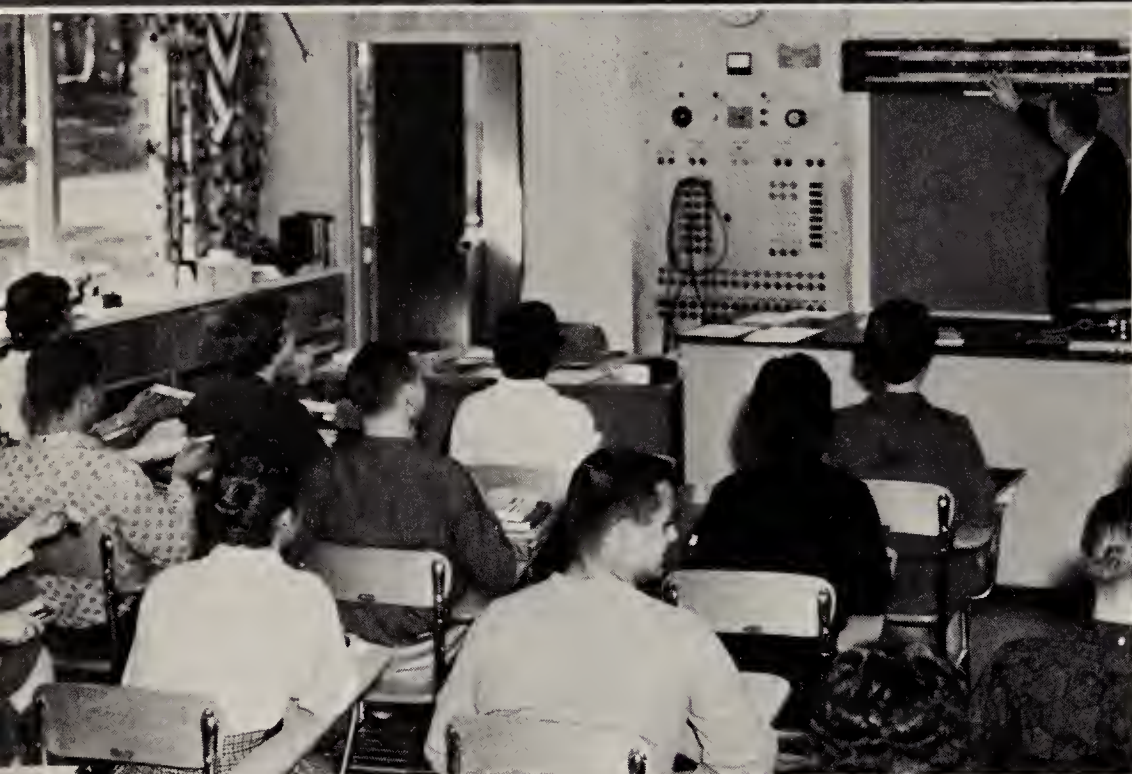

Delegates from United States, Britain and the Soviet Union resume nuclear test ban talks after end of Russia's 1961 test series.

Papers and confetti rain from buildings in Bogota as enthusiastic crowds greet President and Mrs. Kennedy to the Colombian capital.

# Sub Surface to Outer Space

Under or on the surface of the earth, in the air or in outer space, screw threads are vital to man's ability to live, move or work. Strip his inventions of screw threads and he would return to a village handicraft existence. Yes, it would be hard to overstate the impor-

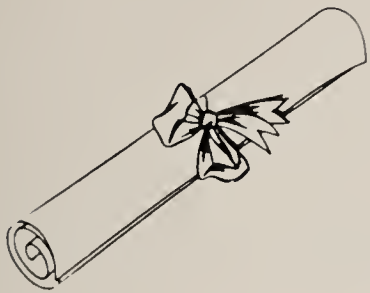

tance of screw threads in our modern world, and equally hard to imagine generating internal screw threads efficiently without taps. If you use either standard or specially designed taps for products on which men's very lives depend, can you afford to use any but the best?

BUY TAPS WITH CONFIDENCE, BUY GREENFIELD TAPS **GREENFIELD TAP & DIE** GREENFIELD, MASS.

## PERMANENT INVESTMENTS

We congratulate you upon the completion of your High School course. Your diploma is the symbol of a wise investment in permanent values — values that will be a sound foundation for continued growth, wherever you go, whatever you do.

Sometime in the future you will have a need for tools — for your job, or your hobby or home repairs. When this time comes, look for the Millers Falls trademark — the symbol of permanency on tools. Since 1868 we have constantly searched for better materials, designs, and finishes to give lifetime utility to the tools we manufacture. Given reasonable care these tools will “season” in use, taking on a character all your own and will be lifetime friends known and proven by the work they perform.

FOR YOUR CHOICE OF A LIFETIME — CHOOSE
